**New survey asks about Delaware County zoning ordinance.**

The public are invited to share their opinions on the proposed Delaware County zoning ordinance by participating in a new survey, available at <https://ecia.org/DelawareZoning/survey/>. The deadline to respond is 5:00 p.m. on Thursday, July 1, 2021.

The County is conducting the survey as part of its effort to develop a zoning ordinance. The Delaware County Board of Supervisors has determined that a zoning ordinance is needed to implement the vision outlined in the County's comprehensive plan and to promote the health, safety, and general welfare of the people in the county.

Collecting community input is an important step in the ordinance development process. Delaware County is collecting community input using a variety of methods including surveys and meetings. The Board will use the community input it gathers to develop a zoning ordinance that meets the county's current and future land use needs.

The public can learn more about the project at <https://ecia.org/DelawareZoning>.

East Central Intergovernmental Association (ECIA) is assisting the County with the zoning ordinance project. For more information on the survey or the project, please contact Dan Fox at 563-556-4166 or [dfox@ecia.org](mailto:dfox@ecia.org).
