

Pre-construction work has begun on the Prairie Springs Recreational Trail. The work being done at this time consists mainly of clearing and grubbing along the trail from the Cresco Yard Waste Site down to the Prairie's Edge Nature Center. **Please be aware that this section of the trail is now closed!** Please obey all trail closure barricades. These closures will also affect portions of the cross-country ski and snowshoe trails. When using these trails, if you come to a trail closure, ***PLEASE TURN AROUND and go back the way you came.***

Please bear with the Howard County Conservation Department and the City of Cresco as we work to improve the Prairie Springs Recreational Trail for all users!
