Legal Description of Property: (Attach if necessary) _____

1. Wells (check one)

- There are no known wells situated on this property.
- There is a well or wells situated on this property. The type(s), location(s) and legal status are stated below or set forth on an attached separate sheet, as necessary.

2. Solid Waste Disposal (check one)

- There is no known solid waste disposal site on this property.
- There is a solid waste disposal site on this property and information related thereto is provided in Attachment #1, attached to this document.

3. Hazardous Wastes (check one)

- There is no known hazardous waste on this property.
- There is hazardous waste on this property and information related thereto is provided in Attachment #1, attached to this document.

4. Underground Storage Tanks (check one)

- There are no known underground storage tanks on this property. (Note exclusions such as small farm and residential motor fuel tanks, most heating oil tanks, cisterns and septic tanks, in instructions.)
- There is an underground storage tank on this property. The type(s), size(s) and any known substance(s) contained are listed below or on an attached separate sheet, as necessary.

5. Private Burial Site (check one)

- There are no known private burial sites on this property.
- There is a private burial site on this property. The location(s) of the site(s) and known identifying information of the decedent(s) is stated below or on an attached separate sheet, as necessary.

6. Private Sewage Disposal System (check one)

- All buildings on this property are served by a public or semi-public sewage disposal system.
- This transaction does not involve the transfer of any building which has or is required by law to have a sewage disposal system.
- There is a building served by private sewage disposal system on this property or a building without any lawful sewage disposal system. A certified inspector's report is attached which documents the condition of the private sewage disposal system and whether any modifications are required to conform to standards adopted by the Department of Natural Resources. A certified inspection report must be accompanied by this form when recording.
- There is a building served by private sewage disposal system on this property. Weather or other temporary physical conditions prevent the certified inspection of the private sewage disposal system from being conducted. The buyer has executed a binding acknowledgment with the county board of health to conduct a certified inspection of the private sewage disposal system at the earliest practicable time and to be responsible for any required modifications to the private sewage disposal system as identified by the certified inspection. A copy of the binding acknowledgment is attached to this form.
- There is a building served by private sewage disposal system on this property. The buyer has executed a binding acknowledgment with the county board of health to install a new private sewage disposal system on this property within an agreed upon time period. A copy of the binding acknowledgment is provided with this form.
- There is a building served by private sewage disposal system on this property. The building to which the sewage disposal system is connected will be demolished without being occupied. The buyer has executed a binding acknowledgment with the county board of health to demolish the building within an agreed upon time period. A copy of the binding acknowledgment is provided with this form. [Exemption #9]
- This property is exempt from the private sewage disposal inspection requirements pursuant to the following exemption [Note: for exemption #9 use prior check box]: _____.
- The private sewage disposal system has been installed within the past two years pursuant to permit number _____.

Information required by statements checked above should be provided here or on separate sheets attached hereto:

I HEREBY DECLARE THAT I HAVE REVIEWED THE INSTRUCTIONS FOR THIS FORM AND THAT THE INFORMATION STATED ABOVE IS TRUE AND CORRECT.

Signature: _____ Telephone No.: (____) _____
(Transferor or Agent)

INSTRUCTIONS FOR COMPLETING GROUNDWATER HAZARD STATEMENT

The transferor of real property is required to complete this form. The purpose of the statement is to satisfy legal requirements for filing instruments of conveyance of real property with the county recorder (Iowa Code Section 558.69). The Department of Natural Resources does not approve or disapprove of property transfers based on these statements. The statement must be signed by one of the persons transferring the property interest or that person's agent. An agent signing this form represents the information from transferor to be correct.

For the most part the information requested is clear (name, address, etc.). One statement under each of the numbered items (1, 2, 3, 4, 5 and 6) must be checked, and if one or more of the statements checked requires the transferor to provide additional information, that information is to be provided on a separate sheet. Relate the additional information to the specific category of facility (well, etc.) by numbering it with the corresponding number (1, 2, 3, 4, 5, or 6). When describing the location of a facility on the property, be reasonably precise, such as a specific distance and general direction from a landmark or corner of the property. A professional survey is not necessary. The following definitions are for use in completing the form.

1. Wells – A “well” is any excavation that is drilled, cored, bored, augered, washed, driven, dug, jetted or otherwise constructed for accessing groundwater or for diverting surface water into the ground, including abandoned wells. “Well” does not include an open ditch or drainage tiles which discharge to the surface.

If a well is an “abandoned well” or an “agricultural drainage well,” this must be identified and the status of the well with respect to Iowa Code sections 455B.190 and 159.29, respectively, must be stated. An “abandoned well” is a well no longer in use or in such state of disrepair that continued use is unsafe or impracticable. Abandoned wells are to be properly plugged in accordance with chapter 39 of the rules of the Department of Natural Resources. (567 Iowa Administrative Code, Chapter 39)

An “agricultural drainage well” is a well constructed for the purpose of draining, or which drains, water from agricultural land to an aquifer (underground), excluding drainage tile intakes which outlet to the surface. Agricultural drainage wells are required to be registered with the department by September 30, 1988, and the owner of the well and of the land drained by the well are to develop a plan proposing alternatives to the use of the well by July 1, 1998 (See Iowa Code Section 159.29.)

2. Solid Waste - “Solid waste” means garbage, refuse, rubbish and other similar discarded solid or semisolid material. It does not include dirt, stone, brick, or similar inorganic material used for fill, as long as no other solid waste is included. See 567--100.2(455B), Iowa Administrative Code (I.A.C.) for further definitions. A “disposal site” is any area on the property on, in, or under which solid waste has been disposed, whether or not the disposal is or was regulated by the department.

If the transferor or agent has not received notice from the Department of Natural Resources that the disposal site has been deemed to be potentially hazardous, there is no duty to inquire to the department.

Information in regard to a solid waste disposal site shall be included in Attachment #1.

***Note** The land application of sludges or soils resulting from the remediation of underground storage tank releases accomplished in compliance with Department of Natural Resources rules
